Official List

OF

STREET NUMBERS

FOR THE

TOWN OF WAYLAND

September 1955

This, the official list of street numbers for the Town of Wayland, has been made by correcting and adding to the list published last Fall in the *Town Crier* after checking it with the assessors' files and the Town census taken in January, 1955.

The Planning Board appreciates the cooperation of the many townspeople who reported errors in the original list. Numbering the houses in a town for the first time is a prodigious task and the Board realizes that there may still be errors which will have to be corrected. Such errors should be reported to Mrs. Grace Courchine at the Town Hall.

Some houses may have changed ownership during the process of this revision. In these cases the houses will retain the same number as assigned to the previous owners.

New houses from now on will be numbered by the developer in the case of subdivisions or by the Building Inspector in the case of individual houses.

This street numbering has been done in the interest of convenience and safety — convenience in deliveries and the matter of locating people, and safety particularly with regard to fire and police protection. In order to accomplish this purpose certain streets have been renamed; such as, Edgewood Road Extension which actually is not an extension at all and is now called Lake Road Terrace; Edwards Road which is now called Winthrop Lane; and Park Street which is really a continuation of Winter Street and which is now called Winter Street.

Also for the purpose of convenience and safety, some houses have been numbered on rights-of-way and private roads. This does not, however, make these legal public ways.
